LOCAL NEWS.

Calla Lilly flour \$2.05 at E. A. Williams.

Sam McNair and bride, who were married in Kansas City last week, arrived home Monday.

We are out a day early this week so the REPUBLICAN force can take in the biggest thing on earth.

Next week the State Fair at Sedalia will be on, and as is usual, many people from this section will attend, as everything points to the best Fair the Board of agriculture has ever given us.

The committee in charge of the Fruit exhibit, which is now being shown at our Street Fair, will take it to Sedalia next week and place it among the exhibits at the State Fair. The other counties will have to hustle to beat Morgan county this year.

Marshall is like Versailles in one respect—she has more children than school room—but they have very sensibly begun an agitation for a \$50,000 High School building. What are the Versailles school patrons going to do about it? Better get together and consult over the matter, for it is more school room or fewer children. Which shall it be?

Fancy Patent flour \$1.90 at E. A. Williams.

For fresh tender meats at all times, call on the Butcher and Grocer. C. H. PRICE.

The Latest New Idea 10c Patterns now on sale at Carl W. Biersach's, on the corner.

The Versailles schools will hold only half day sessions this week, in the forenoon, on account of the street fair.

Attorneys Wray and McVey, and Dr. Lutman, were attending to business in the Miller county circuit court at Tusculum the past week, returning Tuesday.

The Carthage municipal light plant is putting that city in the hole to the amount of \$6,000 per year. Don't think the Versailles plant is quite that bad, but the hole is perceptible.

Joe Thruston went over Sunday to inspect his farm near Stover. He was accompanied by Ross Martin, as chaperon, as Joe is very susceptible to glibish charms. They had a pleasant trip, and Ross thinks he got Joe back heart whole, but is afraid that a dart from a pair of black eyes struck him in the gizzard.

The Presbyterian preachers, who are here this week to attend the meeting of the Kansas City Presbytery, are going to have their eyes opened when they take a glance at the display of fruits, vegetables, grain, &c., they will find in the court house. These people are supposed to be very conservative in their statements, but they can keep inside of the truth and tell some stories, when they get home, that is going to stretch the credulity of their different memberships.

Choice flour \$1.70 at E. A. Williams.

Buy you a horn and get into the procession.

Remember that E. P. Yarnell, dentist, will be absent from his office Oct. 1st to 5th, inclusive.

Jas. Bolton and family, from Trinidad, Colorado, are here on a visit, and taking in the street fair. Mr. and Mrs. Bolton were both raised in Morgan county, and have to come back once in a while where things grow. Trinidad is all right for coal, rail road works &c., but if a person waited for something to grow out there he would starve to death.

The Versailles & Sedalia railroad is being pushed as fast as men and money can do it. Geo. Fredericks, of Stover, has the job of putting in the bridges, and is pushing that part of the work; Engineer Bailey and his chain gang are keeping up their end, and the graders are throwing dirt as if they were paid for it. It will be only a short time until the engine will be snorting, and the call, "all aboard for the end of the road," will ring out on the startled atmosphere.

Crewson & Harrison are making a display of "hill grown" stuff at their office that will certainly give people a different idea of Morgan county's hills country. There is no better fruit, vegetable and grass country than the south part of Morgan county, and the time will come when that locality will produce as much as the north part of the county. Think of a country like this where a man can make a good living, and money, on eighty acres of land that can be had at from ten to fifteen dollars per acre.

The Street Fair is a hummer from Hummerville.

High Patent Flour \$2.05 at E. A. Williams.

Everybody is having a good time—even to the babies.

The preachers are in town, look out for your chickens.

Bunceton proposes to show her generosity by sending a big crowd over on the excursion Thursday.

H. B. Tryon, secretary of the Gravois Mills Telephone Line, was transacting company business here Tuesday. Mr. Tryon states that their line will connect with the Versailles Telephone System.

There was preaching Sunday at three o'clock p. m. at Fern Ridge place by Rev. J. L. McKee, of Kansas City. Mr. McKee and his associates, who own Fern Ridge place, think more and more of their property, and are getting a lot of people interested in Kansas City. They have the making of one of the most picturesque and useful properties in the state. When the people of Kansas City once learn the beauties of the Ozark hill country in the south part of Morgan county, and its accessibility, hundreds of them will come here instead of spending hundreds of dollars going to the Rocky mountains, and other far away places. McKee and Johnston expect to make "Fern Ridge" one of the most attractive places in the country, and spend a part of every year there.

NOTICE.

E. P. Yarnell, Dentist, will be absent from his office Oct. 1st to the 5. Patients will please take notice:

High Patent hard wheat flour \$2.00 at E. A. Williams.

Chas. W. Kavanaugh the Abstracter would like to write your deeds, mortgages, bonds, etc.

L. H. Munda, advertising agent for the Carnival Co., has the ferris wheel decorated with local signs.

Drivers and Draft Colts.

Tuesday morning the crowds began to arrive early and by ten o'clock Monroe street, where the stock is being exhibited, was a mass of interested humanity.

Double driving teams was the most attractive event. There were eight entries, every one of which had more or less merit. C. E. Stockton's sorrel roadsters took the blue ribbon, while a team owned by E. Dill, of near Excelsior, took the red ribbon.

The next event was an exhibit of draft colts, with five entries. The awards had not been made when the Republican went to press.

The poultry show, which is located on the court house lawn under canvas, is attracting much attention, and many fine birds are shown. Morgan County has some of the finest poultry to be found in the state, and the excellent display at our street fair this year, gives fresh evidence of this fact.

Hadley at Versailles.

It has been promised by the State Committee that, if possible, Attorney General Herbert S. Hadley, will help close the Morgan County campaign at a big rally to be held in Versailles on Saturday, November 3rd. Be on hand when the band begins to play.
